

BREAKWATERX

BreakWaterX™ is an advanced alloy-coated fabric built to withstand the harshest environments. Traditional PVC fabrics rely on plasticizers to make the PVC soft and flexible. Over time, these plasticizers migrate to the surface and are lost through evaporation or extraction resulting in ever-stiffer PVC that is prone to cracking and flaking. The alloy used to coat BreakWaterX™ does not require plasticizers and therefore maintains a soft hand regardless of age or exposure.

Warranty: BreakWaterX™ is covered by a 10-year limited warranty

BREAKWATERX™

BreakWaterX™ is ideal for rigid or soft enclosures, T-Tops, or any other permanent or semi-permanent installations.

- Available in 60 and 76 inch width
- Incredibly Strong and Durable
- Remains soft and pliable – no cracking or flaking
- Excellent weldability – hot air or high frequency
- Resistant to mildew and mold
- Highly resistant to prolonged exposure to Saltwater, UV, and Heat

Width	Put Up
60"	50 yards
76"	30 yards

BreakWaterX™ Performance Properties

Test	Method	Basis	BreakWaterX™
Fabric Weight	ASTM D3776	Ounces/Sq. Yard	12.75
Break Strength (W x F)	ASTM D5034	lbs.	391 x 320
Tongue Tear (W x F)	ASTM D2261	lbs.	30 x 25
Trap Tear (W x F)	ASTM D5587	lbs.	38 x 34
Circular Bend Stiffness	ASTM D4032	Unit	6.5
Adhesion (Dielectric Weld)	ASTM D751	lbF/1 inch	20
Low Temperature	ASTM D2136	-40F	Pass

BreakWaterX™ Warranty Information

BreakWaterX™ is covered by a 10-year limited warranty. The limited warranty covers only the fabric being unserviceable because of loss of strength and/or discoloration from normal conditions of exposure. That includes sunlight, mildew, and atmospheric chemicals. Labor and installation supplied by the fabricator and/or installer are not covered. The consumer is responsible for normal care, cleaning, and maintenance of the fabric.
